

# Filter Cleaner

## For cleaning filter cartridges

### Application

Filter Cleaner consists of granules specially designed for cleaning the filter cartridge. The granules prolong the life of the cartridge allowing it to be re-used after cleaning.

### Advantages

- Extends the life of the filter cartridge
- Pre-measured sachets ensure easy dosing

### Product description

White acidic powder  
Contains: non-ionic surfactants less than 5 %

### Dosing recommendations

Dissolve the full content of the sachet in a bucket filled with water. For large filter cartridges, please use 2 sachets. Before cleaning the cartridge, remove any large dirt particles and immerse the cartridge in the solution (wear protective gloves). Rotate the cartridge several times at intervals. Take the cartridge out of the solution after 3 to 5 hours depending on the degree of soiling, and rinse it under tap water.

### Important information

This product should be used solely for the purpose specified.

**TIP:** Clean the cartridge at least every 4 weeks (more often if the spa is in frequent use) and replace it completely every 6 months.
