

# Spa Pure

## Essential disinfection for weekly maintenance treatment

### Application

The special formula in Spa Pure allows it to effectively prevent problems with the water treatment. Spa Pure provides additional disinfection and keeps the water crystal clear. Spa Pure can also be used if the water has become turbid or discoloured. Spa Pure can be used with all treatment methods.

### Advantages

- Makes the spa water crystal clear
- Additional hygiene protection
- Pre-measured sachets ensure easy dosing directly into the spa

### Product description

White granular material  
Contains: 100 g of the product contains 73,1 g troclosene sodium, dihydrate, 19 g disodium peroxodisulphate

### Dosing recommendations

Add the full contents of the sachet to the spa water once per week with the circulation pump running, preferably at a different time from the main disinfectant. After 15 minutes, the spa is ready for use again.

### Important information

This product should be used solely for the purpose specified.
