

pH-Plus

To raise the pH value

Application

pH-Plus raises and stabilises the pH value in your spa water. The correct pH value is the basis for all water treatment. To enhance the effect of all care products, the optimum pH value should be between 7.0 and 7.6.

Advantages

- Easy to use
- Fast dissolving
- Non cloudy
- Dissolves completely without residue

Product description

Concentrated alkali powder
Contains: 100 g of the product contains
100 g Sodiumcarbonate

Dosing recommendations

Check the pH value with SpaTime test strips at least once per week. If necessary, raise the pH to a value of 7.0 to 7.6. Add the required quantity of pH-Plus directly to the spa water while the pump is running.

Important information

This product should be used solely for the purpose specified.
